SEDONA BY LYNX™ ADA® COMPLIANT GRILL

Lynx is proud to introduce the first freestanding cart grill designed for individuals with disabilities. Yet another Lynx first, this ADA compliant unit is very accessible, extremely practical, and has all the amazing features of the Sedona by Lynx™ Grill. Available in 30" and 36" freestanding cart sizes, with or without rotisserie option.

MEET MICHAEL

The ADA grill is an achievement of passion, vision, and a unique partnership that steered the development process. When the Lynx engineering team began designing the ADA grill, we knew we needed an authentic voice to guide its development. Through a mutual friend, we were introduced to Michael (out of respect for privacy, we refrain from including his last name). Michael is a C7 quadriplegic, having suffered a break in his 7th cervical spinal cord segment in a diving board accident that left him paralyzed from the chest down.

Michael was involved in shaping key features of the ADA grill; the propane tank holder, the insulated bullnose, and the grill storage system to name a few. We were happy to hear that core features of our Sedona by Lynx™ grills, such as the Lynx Hood Assist were his favorite features. Michael's contributions on improving the accessibility features of the ADA grill has been invaluable. His insight into the people and families that comprise the disabled community has had impact beyond measure.

We started out as partners. We are glad to call Michael a friend. Thank you for all your contributions Michael. We couldn't have done it without you.
